

MELER WARRANTY CONDITIONS 2026

YOUR GLUING SOLUTIONS PARTNER

WARRANTY CONDITIONS

Focke Meler Gluing Solutions, S.A. (here in after 'Meler') hereby guarantees their products against any material or manufacturing fault for a time of (2) two years from delivery or 4,000 hours of use, whichever might occur earlier, with the exception of the tanks, which will have a guarantee period of (5) five years.

Meler's responsibility hereunder will be limited, on their own criterion, to the charge-free replacement or repair in their factory or in any other place at their own discretion, of the defective or broken products, provided the malfunctioning is due to causes for which Meler may be responsible and the defect should be reported within the time of the guarantee. Meler reserves the right to resolve the guarantee by paying the amount settled by the purchaser.

All repairs or replacements made under guarantee do not extend the time of the guarantee on the original product, except for the renovated or replaced parts, whose guarantee time will be that described above.

Meler will assume no liability for any direct or indirect harm of any kind to the purchaser, including, but not limited to, unmade profits, loss of productivity or any kind of economic damage. The cover of the guarantee is limited as established in the previous paragraph.

Meler will assume no liability for the quality or performance of the adhesives or other materials used with their equipment, or for the suitability of their equipment for the applications to which it is to be put.

This guarantee does not include, and therefore Meler will not be responsible for, all problems or irregularities caused as a consequence of:

- The client failing to follow the instructions for the

installation, use and maintenance of the products given by Meler, or for any other negligence on the part of the client

- the use of spare parts or parts that are not Meler originals
- repairs or work on the equipment by persons not authorised by Meler, or
- the use of unsuitable adhesives or incompatible adhesive mixes.

This guarantee similarly excludes all products which, due to their special characteristics, suffer wear or natural ageing by time, even under correct use.

For this guarantee to be effective, the client must:

1. Report the defect or breakage to Meler within a time of one week from the time it is detected.
2. Be abreast of all payments to Meler.
3. Not have had the product under guarantee altered or repaired on their own account or by others without the express consent of Meler.

Meler reserves the right to inspect the product on reception to check its guarantee condition. If this return should not be made within a time of 30 days, the guarantee will lose all of its validity, and if a replacement product should have been supplied, it will be billed as if it were an order for a new product. If the return should be made and, following analysis, the defect were seen not to be subject to the conditions of the guarantee, the product will be withdrawn by the client within a maximum time of three months, and if a replacement product should have been supplied, it would be billed as if it were an order for a new product.

In products tailor-made according to specifications, drawings or models supplied by the client, Meler will answer for the faithful production of the product and not for the technical quality of its performance, and said products will not be subject to the guarantee declared herein.

All designed, manufactured and marketed following CE standard manufacturing guidelines and under the name Focke Meler Gluing Solutions S.A.
